1. What was your thought process while you were teaching the robot? Can you go through that?

2. Did you have a plan/teaching strategy before you began teaching? How did you use the robot responses?

3. What are your thoughts about the robot's knowledge/competence?

4. Given the start position, would the robot be able to build a wall from this start position. Show an image of a vertical wall, horizontal wall, diagonal wall? Why do you think so?

5. Would you like to participate in future studies? Would you like us to reach out to you?

6. Can you provide an email for us to send you the amazon gift card?

7. Do you have any feedback or comments about the study?

8. If there is anyone else you think might be interested in this (does not have to be a PARC member preferably non-tech person), please let us know/ask them to contact us at aileen-mturk@parc.com
